

# Petition to Governor Arnold Schwarzenegger: Keep ANDERSON MARSH STATE HISTORIC PARK in Lake County Open

**We the Undersigned Lake County residents and visitors** declare our unalterable opposition to the closure of Anderson Marsh State Historic Park in Lake County, which would be disastrous to this community. The park is vital to the ecological health of Clear Lake and its watershed, it contains sites of archeological and historical significance, it attracts many visitors, it is an essential educational resource, and hosts an annual public event of regional importance. The true cost of closure would be incalculable, and far outweigh any meager and transitory budgetary savings.
